

The logo features the letters 'PLM' in a white, bold, sans-serif font, with the 'P' partially enclosed by a white circle. To the right, 'MC' is written in a dark grey, bold, sans-serif font. A registered trademark symbol (®) is located at the top right of the 'C'.

**PLM MC<sup>®</sup>**

**GHOST DOOR**

*We manufacture and design aluminum components for furniture. Our skills have matured over a 40 years and keep improving and enriching every year.*

## ***GHOST DOOR***

*The ghost door showcases only two hinges, mounted into the doorjamb, in order to exalt to the maximum its clean and minimalist design.*

*It is equipped with two dampers and an adjustment system in the three directions, it has been designed to be applied to uprights of different thickness and can reach up to 290 cm in height. At the moment there are two versions available: one with a 95° opening, where the hinge is completely hidden, and one version that opens up to 180°, where the hinge appears frontally, leaving its aesthetic essence unchanged.*

◀ Drawers made of aluminum and glass with choice of accessories.

▲ Modular aluminum structure with customizable back in texture. Soft-closing ghost doors with opening 180° complete the wardrobe.

The version of the ghost door ▶ shown here opens 180°. The hinge interrupts the doorjamb, becoming a decorative element and guaranteeing the continuity of elegance in shapes and lines.

The ghost door in this version has a hinge stop and opens up to 95°. Its oxidized finish is a dark reddish brown.

*Our ghost doors are designed to be mounted also on furniture with a wooden structure. Any design aspect for the application will be provided by ourselves.*

◀ Soft-closing aluminum ghost doors with a hidden hinge integrated into the doorjamb make this traditional wooden wardrobe complete. The doors have elegant, minimalist lines, coupled with panes of the same hue that allow for a glimpse of the interior while highlighting the precision of the shapes

*Our ghost doors can be mounted on wardrobes with an aluminum structure of our own production.*

▲ This cabinet is double-sided, with clean lines and a composition that can be admired from any angle. The ghost door shown here is soft-closing, opens up to 95°, and has a black oxidized finish.

*The finished wardrobe will also be available upon request.*
